

(RE)THINKING YUGOSLAV INTERNATIONALISM

COLD WAR GLOBAL ENTANGLEMENTS AND THEIR LEGACIES

29 SEPTEMBER - 1 OCTOBER 2016

Coinciding with the 55th anniversary of the Belgrade summit and the foundation of the Non-Aligned Movement, this conference will address a range of questions relating to the wealth of diplomatic, economic, intellectual and cultural encounters and exchange between 1945 – 1990, both within the Non-Aligned Movement, across the socialist world and with the developed countries.

It will map the history of Yugoslavia's global engagements not only as a subject associated with political and diplomatic history, but also as a broader societal and cultural project.
